LIMITATA"

**Project / Operation co-financed
By POR FESR Tuscany 2014-2020**

Action 3.4.2 "Incentives to services purchase to support internationalization in favor of PMI" - 2018

AFRICAN HIGWAYS

The 2018 International Announcement has given us the chance to strengthen our *leader* position in road construction in GHANA, country where the company, thanks to a previous edition of the announcement, has entered and is working, extending its activity to other neighboring countries of West Africa, especially BURKINA FASO and the IVORY COAST. This is in extreme synthesis the main target of the project that we intend to bring to value, using our experience that has resulted in excellence also in research and innovation.
